

Outline of Asia Digital Transformation (ADX) Promotion Program

May, 2022

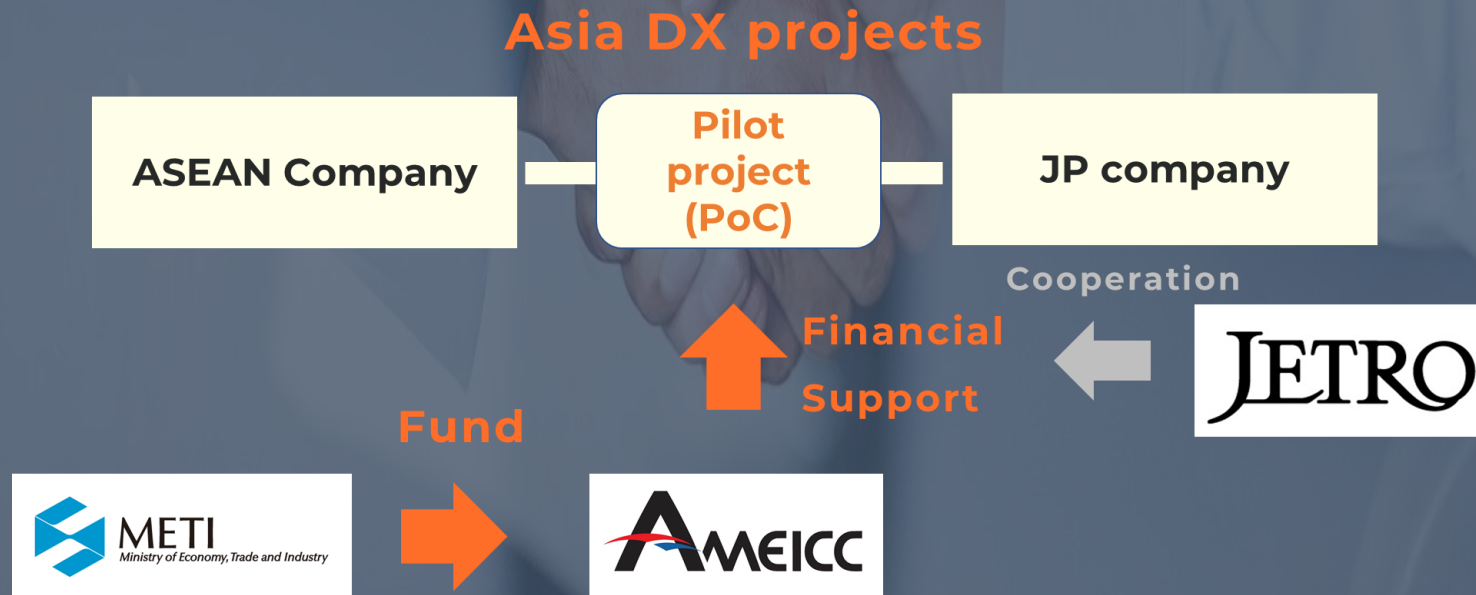

Japan External Trade Organization (JETRO)

Asia Digital Transformation(ADX) Promotion Program

(Support for Joint Pilot Projects (PoC) between ASEAN and Japan)

This program covers expenses for demonstration projects by ASEAN and Japanese companies jointly to contribute to solving the socio-economic challenges in ASEAN region with innovative technologies such as digital tech.

Through the implementation of the projects, Japanese companies will proactively contribute to further disseminating innovations and to improving a business environment in collaboration with the governments and private sector in the region.

【Target Countries】

10 ASEAN member states

(Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, Vietnam)

【Fields】

- Medical/ Healthcare,
- Agriculture,
- Fisheries,
- Environment/Energy,
- Tourism / Mobility,

- Manufacturing
- Carbon Neutral
- Smart Cities
- Supply Chain
etc.

【Project Requirements】

- To specifically identify socio-economic challenges in the country and contribute to solution of them
- To use innovative technologies, such as digital technology
- To identify Japanese company※/ institution as the project partner
- To be expected that the business operation will start or continue early (generally within two years after the completion of the PoC) in the target country or other ASEAN region

※Applications for this program should be made by a Japanese project partner.

※Please contact JETRO office in your country if you want some information for your application.

【Subsidy※¹】

Normal Subsidy	Small and medium companies	maximum 20 million yen, less than one-half of the subsidy-eligible expenses
	Large companies	maximum 10 million yen, less than one-third of the subsidy-eligible expenses
Special Subsidy※ ²	Small and medium companies	maximum 50 million yen, less than one-half of the subsidy-eligible expenses
	Large companies	maximum 50 million yen, less than one-third of the subsidy-eligible expenses

※¹ The amount of subsidy varies depending on the size of the Japanese project partner.

※² For projects which equipment cost exceeds 1/2 of the total project amount.

【Expenses to be covered】

Expenses of travel, machinery and equipment, furniture and fixtures, consumable supplies, outsourcing, consignment, printing and binding, assistant personnel, etc.

【Number of projects selected】

Approx. 20 projects

【Application Period】

Monday, May 9 to Thursday, June 30, 2022 (17:00 JST)

Adopted projects in the past

- The 1st call was opened from July 22 to August 19, 2020 and received 55 applications.
- The 2nd was opened from May 25 to June 15, 2021 and received 45 applications.
- As the result of the examination, 40 projects were adopted in total.

Asia Digital Transformation (ADX) projects Adopted Projects

Mobility, Tourism & Logistics (11 companies ①)

Japanese Company Name	Country	Project Name
Artisan Inc.	Malaysia	Smart City Bus POC (Proof of Concept) Project aiming to mitigate traffic congestion in Cyber jaya, Malaysia
Broadleaf Co., Ltd.	Philippines	Demonstration project of smart mobility platform in the country of Philippines
CAMPFIRE SOCIAL CAPITAL, Inc.	Cambodia	The Project of PoC on financial DX through application for visualization among mobility after-sales service providers and member drivers in the Kingdom of Cambodia
IHI Jet Service Co., Ltd	Philippines	Improving visibility and traceability for cross-border supply chain
Mitsubishi Corporation	Brunei	Proof of Concept for On-demand Shared Mobility in Brunei
Nippon Koei Co., Ltd.	Myanmar	Introduction of COVID-19-FREE Digital Assessment Tool for the tourism industry in Bagan, Myanmar.
Nippon Koei Co., Ltd.	Singapore	Advanced Road Management using Big Data from vehicle camera mounted on commercial vehicles in Singapore

Mobility, Tourism and Logistics (11 companies ②)

SmartDrive Inc	Malaysia	Development and Demonstration of "EV Mobility Data Platform" to Promote the Spread of Electric Vehicles in Selangor, Malaysia
Sojitz Corporation	Indonesia	Social IoT services in Bali, Indonesia, to support its inbound tourism industry.
Toyota Tsusho Corporation	Cambodia	Development and demonstration of a MaaS digital platform for tourism in Angkor (Cambodia)
WILLER Inc.	Vietnam	The Project of AI Route On-demand Share Bus Demonstration in Hanoi, Socialist Republic of Vietnam

Environment & Energy (3 companies)

CHALLENGE ENERGY INC.	Philippines	Creating sustainable Islands in the Philippines by building a distributed energy platform
JERA Co., Ltd.	Thailand	Verification of a business model using digital technologies and power infrastructure standards for thermal power plants
KOBELCO CONSTRUCTION MACHINERY CO., LTD.	Malaysia	Automobile recycling demonstration project utilizing IoT End-of-life vehicles management system in Malaysia

Agriculture (7 companies)

ARUN Seed, Certified NPO	Myanmar	Project for PoC on the quality and traceability of agricultural products through a farming support platform based on AI image recognition model in Myanmar
ELM Inc.	Brunei	Development of temperate vegetable cultivation technology in Brunei using the container-type robotic cultivation system "EcoNursery"
Nihon Agri, Inc.	Thailand	Demonstration of horticultural strawberry cultivation in hot areas (in Chiang Mai, Thailand)
Polar Star Space Co., Ltd.	Malaysia	Oil palm disease early detection business by ultra-high precision spectrum measurement
Sagri Co., Ltd.	Thailand	Demonstration project to build a digital infrastructure for rice farmlands information in Thailand using satellite data
SkymatiX, Inc.	Cambodia	Project to introduce "Iroha", the Japanese Crop Monitoring Service, and promote DX in Cambodia.
Sojitz Corporation	Vietnam	Implementation of "Pig Net", a DX production management system, in the Vietnamese pig farming industry

Fisheries (4 companies)

FishBiotech.co.Ltd	Cambodia	Development and demonstration projects of the Production Management System with farm-raised tilapia utilizing a digital transformation(DX) for building the aquaculture economics in Cambodia
OceanEyes Co., Ltd.	Indonesia	Surface fishery digitalization in Indonesia
OPTEx Company, Limited	Thailand	Demonstration project for localization of simple aquaculture water quality monitoring service using DX in Thailand
Umitron K.K.	Thailand	Development project of data platform for shrimp farming in ASEAN region by using IoT/AI technologies

Medical & Nursing(10 companies①)

aba Inc.	Singapore	Development and introduction of the Helppad, an excretion care system developed in Japan to solve the shortage of nursing staff
Allm Inc.	Malaysia	Development of an online medical platform based on personal health records in Malaysia amid the COVID-19 epidemic
Allm Inc.	Singapore / Malaysia	Development and introduction of solutions for contribution to the DX of dialysis clinics in Singapore and Malaysia
CarbGeM Inc.	Vietnam	Development of an AI-assisted online bacteria identification support platform aimed at promoting DX in the infectious disease area in Vietnam

Medical & Nursing(10 companies②)

Fujita Medical Instruments Co., Ltd.	Myanmar	Trial and marketing of the excretion disorder rehabilitation program in Myanmar
Hitachi, Ltd.	Thailand	Development of a service with disease risk prediction model in Thailand
Medring Co., Ltd.	Vietnam	Development of smart clinic chains aimed at promoting DX in the clinic sector and development of medical big data platforms in Vietnam.
PARAMOUNT BED CO., LTD.	Indonesia	The project for the development of a more accurate monitoring service business for telemedicine and other situations using sensing devices in Indonesia
Ryobi Systems Co., Ltd.	Laos	Provision of health-management platforms by leveraging Personal Health Record infrastructure
Ubie, Inc.	Singapore	Demonstration project to implement "AI-based medical interviews" at private clinics in Singapore

Manufacturing & HR (5 companies)

The Asahi Shimbun Company	Thailand	Career education media platform business for Thai university students
Fuso Machine Works, LTD.	Indonesia	Development and implementation of an OEE losses analyzer (OLA)
i Smart Technologies Co.,Ltd	Thailand	The project aims to build a productivity improvement service business using IoT tools and support improvement in Thailand.
NIPPON STEEL ENGINEERING CO., LTD	Thailand	Advanced Safety management system for Manufacturing and Construction site worker by using image sensing AI
STUDIST CORPORATION	Myanmar	Demonstration project of streamlining education and training using visual-based manuals in Myanmar
